Hiring Supervisor: Michael Higgins

Position Status: Salaried

Location: The Colony, TX

Job Classification: UI/UX Designer

Relocation Benefits: No Relocation Benefits Provided

Job Description:

ELM FieldSight provides unique solutions in Asset Monitoring and Control to their customers. Their suite of products includes:

- Microgrid controllers for energy systems that include generators, inverters, solar arrays, and batteries
- Battery Energy Storage Systems for home, commercial, and utility scale
- Web and Mobile Apps allowing user to view and interact with collected data

For these different product lines, they are responsible for designing web and mobile app UI/UX.

ELM FieldSight is looking to hire an entry-level UI/UX Designer that designs custom UI/UX for viewing/interacting with customer data from our back-end web monitoring and database. This designer will work with a UI/UX Developer and Back-End Engineers to bring an eye-catching and responsive design to our applications.

This applicant will:

- Create an interactive and accessible model based on input
- Implement models with eye-catching design
- Develop a mockup of the website and interfaces
- Create interface elements such as menus, call to action, tabs
- Testing and troubleshooting user experience issues
- Research with a team to implement business objectivity into design

First Tier Experience Considerations:

- Bachelors Degree in Graphic Design or related.
- Adobe Photoshop, Adobe Illustrator (or similar)
- Figma, Adobe XD or similar
- Modular design, reusable components
- Mobile design techniques and design a plus

Second Tier Experience Considerations:

- In-depth knowledge of common coding languages like HTML, XML, JavaScript
- Mobile experience a plus

Application Procedure:

Please apply by emailing your resume or application to Michael Higgins at mhiggins@elmlc.com
